Paper No. 12

In re Application of

Barry L. Rauworth et al : DECISION ON PETITION

Application No. 09/960,606 : Filed: September 21, 2001 :

Attorney Docket No. 2267.398US03

This is a decision on the petition filed by facsimile transmission on November 6, 2002, by which petitioners have requested that the above captioned application be accorded special status for advanced examination out of turn. The \$130.00 petition fee has been received.

The petition is granted.

Petitioners' request special status based upon the practice established at MPEP § 708.02(II), Infringement. A review of the petition shows that petitioners have clearly met the requirements for a showing in support of a petition to make special based upon the existence of an infringing device.

Accordingly, the examiner will treat this application as special throughout its prosecution. Prior to the next action on the merits, the examiner will conduct a rigorous search for potentially interfering applications. The interference search will be brought up to date prior to each successive action.

The application is being forwarded to the Supervisory Patent Examiner of Patent Examining Art Unit 3727, who will forward the application to the examiner for action consistent with this Decision.

PETITION GRANTED.
